Political Christians

By

Dr. Wesley A. Swift

25th July 1965

We turn tonight to the subject of the relationship of the Christians to politics, and the church as to her part in politics. In the "Life Magazine" we have seen this laid out, as to what the church has to do in order to exist. And we have reported that on the attitude of many Clergy who should not even be qualified as Clergy, in the church of Jesus Christ. But we make this assurance unto you that the church does not have to change its God. The church today is not qualifying its survival by eliminating Jesus Christ and who he is supposed to be. From the content of our faith and our thinking, in order not to be branded as superstitious or accepting the mythical. Again we want to make this foundation clear to you. That upon the foundation of the Christ can the structure of Christianity be filled. For the very words Christianity and Christian are identified with Christ. It is identified with identity and identified with his place. Of all of the areas of usurpation in all time and history. If the man Christ Jesus was not the embodiment of God, not the fulfilment of Messianic destiny. If not who he claimed himself to be, then he was the biggest impostor in history of all times. And if HE is, and now we know that HE is who he claimed to be then, my friends, His concept his purposes are fulfilling the destiny of which HE had ordered. Then this is the most important area of commitment that you and I can participate in.

When we talk about the church, we are talking of a living institution called out of God, out of a people, out of a race, out of a people whom HE established in earth to do his will. Every once in a while I hear someone talking about Judeo-Christianity. There is nothing quite as fallacious as they perceive by those words. But I want you to realize that in the error of this use. That what we call Christianity today is all of the error out of the history of the Adamic race, and the people called Israel. And the word Israel means, Princes, issue ruling with God. Who is, the issue of God, resident in earth in a physical body, placed here to build his kingdom, to put a world in order already in catastrophe and confusion. When I talk

about Christianity, I am talking about a family whose roots are founded in this book. Not necessarily alone for their academic pattern of knowledge. For we have said before, you can never accumulate too much knowledge or wisdom. Most of the world's problems lie in superstition and ignorance and darkness. For every truth, you find will be in complete alignment with God. Hear this now, every truth that you find will be in alignment with God. For as the first source, earth's Creator, master intelligence and super master controller of the Universe it is that every atom is balanced by His brain, as HE alone holds the neutrons, and electrons in balance. And it is He that regulates the masses and controls everything, from earth to the farthest areas of the sidereal system. Until the spectrograph bears its testimony and announces that one great super intelligence, with wisdom knowledge and law, holds together all of the substance material you see in the universe. And today you and I must find our relationship in time and place. We must learn to understand that as we talk about material things. That we are only talking about this wavelength of energy controlled by this intelligence, and wisdom and solidified by the very will of God himself.

And this is called a material world but it is only made up of electricity, and put together and held by divine law. When we talk about the areas and dimensions of light, held together by the very will of the authority that makes it what it is. And when we talk about animation we are talking about the very synthesis of light and life, that makes up the vitality of light and energy. And this we find that the very words are that the embodiment of God who is the life, and the very intelligence of men, is who our father is. We are not an apologist today, I am tired of Christian apology. We do not apologize for our faith and for our firmness. And we do not apologize for the superiority of our God, for he is above all gods, and we do not apologize for the supremacy of his race which he has ordained. Oh, you say we should not support these policies in a democratic society.

I am interested in the sovereignty of God and his kingdom which I have been taught to pray for since I was a child. "Thy kingdom come thy will be done, in EARTH as it is in heaven. "I have no other objective. I point out to you that having recognized the sovereignty of such intelligence I

also recognize the patterns of emotions, and personalities that was embodied in the man Christ Jesus. For there we had the ultimate in Grace and understanding. By the same token we have talked out of the pattern of His revelation, of the greatness of these patterns and of his word, which has served us as an absolute wall against the areas of catastrophe and destruction. A portion of the wall against evil which is all around us as a negative force which hangs onto our society and causes such catastrophe everywhere in the earth. And we have thought that it was the nature of God who could not deny himself, and area of extended mercy which reaches to the uttermost. That has no ultimate pattern but to see everything swept out of his universe, and everything brought beyond his power to adjust. And we catch the words of the Master who said: "I came not to condemn but to save, that which is lost." I came to save men from their error, of the violations of divine law which bring catastrophe. Then very simply, 'I came to save men from death.'

By this very policy again we point out to you, that the blueprint of God's kingdom is the content of the book. And in this book we have the thoughts and the expressions of the mind of God, as it is captured and understood by men. We have the history of patriarchs and in some instances it has been a summary of not only hundreds of years of history but it contains not only the things that are past, but it contains that which has come to pass since the closing of the book of Revelation, as to the things which are ahead. It carries that deep and unusual force of writings that we refer to as Prophecy and we have been assured by the prophet that we have a more sure word of prophecy. Because we have the evidence of inspiration, and the evidence of the super natural wisdom, when things that have not come to pass have been discussed and things that will take place are referred to. And when we have been told of things that were in the past, which have been brought back to our remembrance by the patterns of the spirit.

I want you to realize that Christianity is synthesized out of something that is different, something that is from above everything else that has been placed in earth. Because it has been made out of another specie that God has placed in earth, different from any other kind, on the face of the earth. Today they are trying to advocate that all people, all races, are all of the

same substance, all made out of the same kind of material that you are. They are thus if made out of the same kind of material also embodied in the flesh. But all flesh is not the same. There is the flesh of the bees and the birds, and the flesh of man. And there is the flesh of Negroes, of Chinamen also whether you like that or not. But there is a quality that is built into the life force that guarantees kind begets like kind, 'seed having life in itself'. And therefore you can anticipate that it is what gives life unto you and unto your forbearers. This is a living and vital force, and it is found in the whole process of mitosis and in the whole pattern of spermiogenesis in carrying out this divine pattern of begetting life in its one time and in its own likeness. And you would not have trouble it was all the same. You would not have trouble today if it was all the same, there would not be any attempt upon the part of those who wished to eliminate the influence, of the household that God established in the earth, of the cultural pattern that God established in the earth, of the initiative, vision and drive which becomes their own reward under God. But this mediocrity under an elite corpse who are master planners who would reduce the world's society to a mongrelized mass and destroy their influence. There is no question about the fact today that there is one single powerful influence today in all of the white world and that has been the church. And there is no question tonight that it is still the most potent force among the people of the white race. Within the same scope it has been one of the primary objectives of the forces against Christianity, and anti-Americanism and against all of the white social world to change theology and change the nation and its responsibility. There is no question of the fact that from the beginning of the Old Testament to the new that we are dealing with the Adamic race. No student in the field of anthropology or scientists in the field of anthropology, would begin to tell us that this Adamic race which started 7400-plus years ago was the beginning of the people who walked upright or wore clothes on the face of the earth. No anthropologist, no scientist, no individual who has examined the structure of the earth, or examined the fossils, or has been educated in the background of artefacts, who deny that even down 600,000 years ago down in that gorge in Africa that they found traces of man. None of these people would say that the beginning of the white race was the beginning of people who walked upright on this earth, or had governments, or intelligence in earth.

Nor do we pretend tonight to accept a foundation so crude. Nor was there even in the scripture a biblical advocate that this was true. Nor was there every any claim made in the scripture that this was the beginning of the history of all men in the account starting with the beginning in the book of Genesis of your race, to this time. For there exists in the structure of this book many allusions to the structure and history of other races which covered the whole earth, such as the Assyrians, or the Empire of Egypt which is older than the Adamic race. They existed when Adam was placed in the earth according to the book of Ezekiel.

There are references to the things which happened in prehistoric periods in the days before Adam. As there is also in the history of the pre-Noah world. There are many things which have been taught by theology and placed in Orthodoxy which have not always been accurate or have they been scientific. And they are not what God intended for men to understand. So we do not mean that today you cannot serve God, you cannot worship God until your Christian inheritance must be a total acceptance of all of the patterns called Orthodoxy.

But I want to point out to you that there are certain foundations that you should not ignore. You cannot ignore the foundation of cause. You cannot ignore the foundation of your race and your origin, or your ancestry. And of all of the people on the face of the earth you have something to be happy and thankful for, and that is that you are the children of God. I am not speaking of mental gymnastics as the result of mental conversion, thru the work of the minister or the priest of the church. I am talking about the pattern of origin in which the offspring had nothing to do with, but the Father has everything to do with. And when I tell you that today you are Adamites you who today make up most of the structure of what we call Christianity, have come down from a long line of Genealogy which had its foundations in the man called Adam. Who according to the scriptures and the gospel of Luke, and in the background of the scriptures was this man Adam, who was the son of God. Thus when you trace the genealogy of the man Jesus Christ then he was the son of, until Adam the son of God. And the scriptures bear this out that this is the descendance, when you read the writings of Moses and follow thru the declarations of the Prophets or the great areas rolled out by inspirations.

Then we find from this the existence of a holy seed, and that he said: "I have placed you above all the people on the face of the earth." (Deut. 7) Why? Because thou art a holy seed, a holy people above all of the people on the face of the earth, and "Thou art mine". God acknowledges you, and claims that not only is he your Father, but you are his offspring. HE brings the genealogy down thru the history of his people, and history has to record. And when you deal with this then you are dealing with the first white man the first white man on the face of the earth. You are dealing with the white race and its history. We are the people of this book, and the authenticity of this book, and as you travel over the world you then find this book, and that this is the most important area of the foundation of this race.

I find this book under constant attack by critics, and by those who do not want to free themselves from "Thus saith the LORD." They want to minimize what HE has said as not important. But I am going to tell you that the most important volume in Christian Civilization, and the most important volume for the white race tonight is the holy scriptures, that we refer to as the bible.

Now you may be diametrically opposed to me from the stand point of political philosophy because there are always a few agents sent in to see what we are going to say. Some times they come in to oppose and sometimes they are just here to do a job, and they may think they are totally opposed to what we are going to say. But this does not change the facts of what we are discussing. Nor does it change the fact that if we can reach the people, that they will accept the great basic patterns of truth, then they will move this way faster than all of the propaganda can take them the opposite direction. It is becoming more and more evident that there is a Master who calls to his children. HE said: "I call my sheep by name and I lead them out." They may be influenced by other voices, but in the climactic pattern of time HE says: "My sheep will hear my voice, and they will follow me." In the course of time my sheep will not follow the stranger. You may today be subordinated to an attack against your faith and against your race, and against every thing that relates to the structure of your society.

This is going on today in the schools, and it is going on at government levels And it is going on in politics by those who think they are the saviours of the world, when unfortunately they have directed themselves away from the directions of the holy scriptures. And although some of them quote scriptures as though preachers they quote them out of context, and without purpose and they do not begin to suggest, "Thus saith the LORD."

This is the reason we tell you that the most important institutions that God developed and prepared were out of his race. They were the called out ones, the Kehilla under the Hebrew and the Old Testament writings. They were the 'called out' ones, those who were assembling and worshiping and giving the credit to the Father. Being directed by the areas of his law and His word, seeking to produce the kind of society that he had ordained. They become the most vital force inside of God's kingdom, and become the most vital force inside of the structure of his society.

Now; if you want to go to an old testament foundation then let us make this very, very clear. When God talks about a people whom he has placed above all of the people on the face of the earth. When he talks about nations, and kingdom and when he was going to build them. I want you to know that the kingdom of God is political. Why do we say this? Because it is made up of men and of nations. And it is made up of a design by the Most High God to bring to fruition, the rule of the earth from sea to sea and from pole to pole.

Someone always says, You don't mean that God has established that one race will rule over all the earth, from pole to pole and over all tongues? I mean exactly that. There is going to be a perfect government in earth. It is going to emerge out of his own household, our of his race, and his people. And he intends to rule the world with his sons and daughters of God, born in the heavens of the spirit, transferred from heaven to earth. Reactivated by his spirit, renewed in their minds regenerated by his holy power, and put in the rulership of earth from one end to the other. Nothing short nor less than that.

Someone said, but Dr. Swift, is this democratic? Suppose someone doesn't like it? I don't think God is giving any consideration as to whether the devil likes it, or whether those who are worshipping wooden idols, or wood and stone, or gods that are no gods, whether they like it or not. He says: 'there is no God beside me, I know not any.' And He is not going to consult with any of these, but will run it according to his own will. And will bring it to fruition.

When I looked at the church bulletin this week, which said: Will God survive? Then I realize that the church has to get away from this concept that God will fall because this sounds too mystical and to supernatural, and we have to get down to the areas of just social science which will bring about a peaceful existence. We have to integrate the Negroes into our society, we have to marry them. We have to have a church which makes not distinction between race, colour or creed. But when you do that you have an entity that has been emasculated and is totally deprived of any spiritual power, and is of no value what so ever. It is far better to be for something than to be a nonentity that does not think at all.

I think of Jesus when he referred to the church and referred to this Laodacean age in which we live. And he said: 'I know thy works and thou art neither hot nor cold. And because thee are neither hot nor cold I shall spew thee out of my mouth.' And I wish the disassociation from the church of Jesus Christ who has no opinion.

They ask me to speak at a service club a few days ago. And they said, Dr. Swift, we know that you can speak on a large area of subjects, such as economic factors and other things. But we would like for you to come to speak on a non-controversial subject.

I said: 'I do not have time.' They said but what do you have to do? I said, I would rather go fishing than speak on a non-controversial subject. And they said, but we think it would be to your advantage to come and meet these people. I said, what makes you think I would want to speak to a group of people about a subject that has no controversy in it? The Most High God comes down and says: "I have a controversy with the nations and with men." How then could his ministers not have a controversy?

You show me ministers without a controversy and I will show you men who do not belong in the pulpit.

Now; in these patterns I have learned that in this great nation, built for God, inspired by men who even crossed the ocean in order to have freedom of worship and freedom of expression, and you hear people say: Oh, these were just a lot of land hungry men who just came over here for their own interests. You may buy that if you want to, but I am not going to help them run down our forefathers who built this country. In the last 30 years this has been going on more than in any time in history. But I have confidence in men who built their colleges, Yale, and Harvard, and Princeton with a spiritual foundation and gave us men who produced our constitution. They were a lot smarter than these men around my Johnson and they carried this out that which they believed.

I heard a man the other day say we are going into the golden age. We are finally stepping into the golden age, the termination of all problems housing, medical care, proper food, and the war on poverty, how could it ever be better than this? I said, what a fantastic subject for a preacher.

Oh, they said, doesn't it sound wonderful? Well the whole thing is a Satanic lie, an inoperative program based on a lie, and it will fall from its own weight, and these people are in dissoluteness. It in itself, is crying in the face of mathematics. It is a repudiation of the law of progression. And the eventually staggering size of death. Then we have men like our governor who thinks that it does not matter how much you owe just so you keep on printing it and spending it. The only thing is that eventually it will take a wheelbarrow to carry enough of it to buy a cup of coffee, as it gets to the escalation point. If you do not believe that then go back to Germany after W.W.I, when the Jews started to escalate their currency by inflation. I still have several million marks that would not buy a cup of coffee. I point out to you that our founding fathers were spiritually energized that had a culture that was energized like in the days when God spake to Adam and Eve, and to Moses, and had the background in time and history, and the things of remembrance of the offspring A people whose inheritance found themselves with people who were embracing the Messiah and Christ's leadership when he came. I find that we who are

Christians have the inheritance of almost 2000 years of the struggle of men, inspired of God, and his word. And moving with a very vital and important cycle called His Ecclesia, His called out ones which are the church itself as a great spiritual force from the race which is his, and from the nations which are his.

Now; lets face it, there have been empires on earth while we have been here, that were pagan. From the gods Sette and Soth in Ancient Egypt, who harassed some of the Pharaohs who embraced only ONE God. In fact so much did, they do this that the temples of Amen-ray became the temples of YAHWEH-PUTAH. And the Princess of that time left writings of her husband's reaction to this, by the white man in his temples of On, in Egypt. I point out to you that from pagan Egypt, Babylon that powers of darkness would move in. And we have warfare against our race and our faith by all of the religions of the world which have fought to destroy its testimony.

Whether you know it or not, your race has been at war ever since it arrived. You may have some risks from time to time, but you also had to have walled cities and to be on guard, you have had to battle. But I want you to know that none of these things separated us from God. After all he used Michael the Archangel to throw Lucifer out of the heavens. This was a great celestial battle that carried more areas of space than anything which ever happened. Read the 12th chapter of Revelation. Go read the background of the writings of the Old Testament. Read the background of contemporary literature, of men like Enoch. And go into the ancient Zohar. And pick up the test of other people of earth. Find out what was written in the writings from ancient India, and ancient China. And they will tell you about battles in space, and struggles between forces, and then their acceptance of the Dragon, the Serpent God. But it was a great God above him who threw him out of the heavens. YAHWEH the eternal.

Some people say, don't you mean Jehovah? There was never such a word as Jehovah, until about the tenth century, and then it was coined by some people who made it a composite word, and put a 'J' to it. But YAHWEH is an old word, and Eternal word, and the name of the Father. And in the Hebrew-Aramaic from which your own Anglo-Saxon comes the Eternal

YAHWEH who is YAHSHUA, and the word YAHSHUA meaning GOD THE SAVIOR. For he says in the writings of Isaiah: "I am thy YAHWEH, who is YAHSHUA. And beside me there is none else." He said: "I am thy savior, I am thy God, I am the Holy one of Israel." And when the virgin Mary was told by the Angel Gabriel that she would have a child, who would be this embodiment of God. And he was to be YAHSHUA, AND HE WOULD SAVE HIS PEOPLE FROM THEIR SINS, or their errors or transgressions. For they are here to build his kingdom and HE is going to sit upon the throne of his father David.

There is no question tonight, that out of this long panorama of experience this meteorite embodiment of God, which came in with signs in the sky. That gathered the hosts of the Jews and they decided to kill the babe. This was a man of challenge that walked the earth, and could still the wind and the waves. Could unstop deaf ears, raise the dead, and open the eyes of the blind? Someone said but we do not want a religion built on this. But you better have a religion that is self evident. If the God of the universe has not the power to do anything he wants after he built the universe, then you are in dire straits. If you are not the children of God, born with the same type of spiritual power, in your Celestial beginning, and same power in your earth embodiment than you are as HE, for you are his offspring. And when you have fulfilled your mission in the earth when you have fulfilled your destiny then you are going to do the things that Jesus said: 'Greater things than this shall ye do. You are going to do those things for you will understand how.' For he is going to renew these things which you have forgotten, and then bring all of these things to your remembrance. And you are going to stand tall as sons and daughters in the earth. And you are going to occupy your inheritance.

There are some people who say, so you believe that this white race has a super quality? Do you believe this race has a supremacy, that it is better than other races on the face of the earth? I believe this with all my heart. And I believe the evidence of this even in the state of our conduct. Because this become one of the most evident patterns among society. And it is already in the clutches of such satanic institutions trying to absorb us, as the United Nations. For they even, they turned to the white Christian nations and said that we are the 'Have nations' of the earth.

Some way the 'have nots' have to get a hold of what the 'have nations' have and then divide it up according to their numbers, in spite of their intelligence or ignorance.

I want you to know that right now all of the 'have not' nations of the United Nations are working on this, and all of the 'kooks' around the United Nations, and around our president are working on this. They are trying to take everything that you have and divide it up with everyone who does not 'have', and who never have produced anything. And right here in the united States they are also trying to do this.

Now; I have great compassion for people who have had bad times, or are victims of catastrophe. I can be some what compassionate upon them because they are victims since their forefathers did not have anything. But I want you to know that the reason people are poor is that they do not produce anything. The reason why we have most poverty is because of not having the capacity to produce. Because you were not smart enough to keep those our of your country who would come in an bilk you. There were many people who lost fortunes during the depression, because of the House of Rothschild, and the Warburgs, and the Richburgs. And this design that we are to have our goods confiscated by some illegal area of government, and then dispersed all over Africa and over Asia. And then we are even being told that we have to integrate them into our society here for they are our equals.

I am going to tell you that there is a processing bill up and the President is for the abolishment of our immigration laws. But this bill that is involved would bring 70 million people from Africa, and from all over the world into these United States; 70 million of them.

I am going to tell you something. The minute they try to bring in this 70 million then we should be like our forbearers were with the British, behind each rock and behind each barrier give them ball for ball. It is my personal opinion that when you are equal or superior you should stay home. For the resources of Africa are there, just like they are over here. If you are coming over here to stay and you think we are happy, then don't come.

Under the instance of what we now face is this. I am thinking of this week, from out of the Baptist church came this from the Jew advertiser, Saul Lindsay, who for the past year has been advocating that from 300 to 400 ministers should be revolutionists in the church. He said, 'I have worked with the Communists and I have worked with the CIA and with socialist revolutionists, and I can make more socialists out of the ministers than any other group. For once I train, them they become a fire for this thing.'

And then I take the files from the Bucharest conference nine years ago and then 11 years ago, and then five years ago, and then yesterday. And they are areas of psycho logistical learning which they are using to penetrate our institutions of religion to give us a new Gospel, to sell off our Faith, or race, and to absorb us in a revolution that will be filled with all kinds of burning new world ethics. But they are not Christian, and they are not Israelitish. I am not talking about Jewish, but they are not Israelitish and they are not Biblical. I point out therefore, that getting a little concept of this we would point out that in the ages before your time there were battles and wars and conflicts, and whole civilizations were subject to the flames of war, all for the engulfing violations of law. Human life was not valued very high. And in our world today it is still not valued very high.

The only time you find any value on life it is inside of the kingdom where the laws of the kingdom exist. Life is not worth much in China. Their leader said the other day that they were willing to spend 30 million lives to gain a foothold in North America. And if they could get a foot hold in America that would be worth the 30 million price, for they would have just that many less to feed. This out of the political leader in China.

I am going to tell you this, we do not have 500,000 men to expend for all of Asia, not tonight. Hear this. We do not have that many. Someone said, my, Dr. Swift, don't you think that we should stop the Communists? I believe we should stop them but not with any trickle of American blood. We should not use the best of our youth, let's take these sharp threshing instruments which God has given us. Let us tell them to stop their

threatening the rest of the world or we will go over there and atomize them out of existence.

I point out to you that there will never be a way to free Africa or Asia until you free their minds from those Satanic Witchdoctors which control. Therefore whenever some of their man power becomes focuses in their machine for your destruction, you must therefore find your relationship to these events in the mind of your Father, who put you in this environment. Did God say that He wants you to stand up like Martyrs and march out and die?

No. He says, 'I put in your hands a sharp threshing instrument. And listen you, who are my race, you are my battle ax and weapons of war. I want you not to be marching out your sons, I want you to follow the leadership that I have carved out for you and do not follow this leadership that has come in and is trying to guide you differently. Do not let the enemy lead you.'

In the Old Testament then God made statements to the leadership of your race, and he activated them, and he led them. He called this his kingdom, and he prophesied as to the destiny that would emerge from it.

Then came the Israelites into Western Europe Anglo-Saxon, Germanic, Scandinavian, and others of the race. Then on they came to the western world. And today we have arrived under the outstretched wings of the Eagle, carrying out our destiny. From South Africa to Australia and from wherever your race exists you will discover churches and cathedrals dedicated to the one Eternal Living God, and embodied this was the Man Christ Jesus. One great dynamics which carries out the concept of the scriptures. And I want you to know that Christianity can never be socialist. You say why is that? Because responsibility obeying the laws of God is to reward men for their energies and to permit them to accumulate for their families and then pass it on down to the other generations of the race. This is one of the patterns of sacred trust, and stewardship, to the delight of men, to establish property, for his home for the production of his farm, and for the inheritance of his family. For property is one of the vital factors for the Sons of God to occupy and to possess.

God talks about stewardship, about the proper support for his kingdom, about sharing with those who are less fortunate, and about feeding those that need help and coming to the aid of a person that is sick, or a person that has become lame, or the poor which you have with you always. But he also opposed the taking over of that property, for it belongs to a man and his family. If the property has to be let out to someone else, or if there is a hand that would foreclose on it, then there comes upon it the laws of the Jubilee in the laws of God. And the property returns to the family which owns it forever.

You see the bible has two principals which are: liberty, and property. Today they tell you that you only have permission to use your property at the will of the state. Socialism wages its war to control your destiny, from the cradle to the grave while it maintains an elite Anti-Christian bureaucracy as your rulers. And in its design it is against the church. Lest it can capture the church to advocate a class theocracy, it soon possesses nothing and moves around with a lost vision like a lost civilization upon the entire pattern of time.

At this moment it is not Africa or Asia that leads the world but at the rate we are going, after 30 more years of this you would fall like an Asian Empire and the world would be rocking in its darkest hour. But this is not to be. But in the days of our forbearers they actually participated and directed, as many people as they could influence in their church and the minds of the people, who were the creators of your nation. And these people were influenced by the minds of the church and its speakers. When they built the constitution of the United States, they put together one of the finest documents that had ever yet been put together. If they had known what we know now they could have even improved on it by, making impossible some of the abuses that have later taken place. But it was a fine document.

Someone said it guarantees me many things. But actually it does not guarantee you anything. It is just a fine document which you put together that will produce these things for you when YOU make it work. Someone said I have the Bill of Rights which guarantees me many things. But you, my friend, must put sinuses and strength into the Bill of Rights or it does

not guarantee you anything. If you don't do it they will disarm you and then you will not be able to do anything with it. From the day of your beginning you have been an armed citizenry. Take that away from you and you will not be able to guarantee anything. And yet today then you have in your own government those who would disarm their own citizens because they do not trust them. But God calls upon your household to stand up and defend your race, your nation and your throne.

Let me point this out to you. For it has become a fetish in America. That the greatness of our society is based on the separation of church and state. Yet some of the catastrophes in America have come from this separation of church and state. There is not one word in the official papers of the United States Government about the separation of church and state, until we came to this prudent generation. Because, the area of authority was that there should be no state church. No individual denomination, Methodist, Baptist, Catholic that should become the official church, and dominate the whole society based on their own interpretation which they might carry. But there was nothing designed that said that the church, this great living institution, which crossed all denominations would not have the ability by constitutional rights to influence the course and structure of our nation. If the church does not influence America then the devil will.

Now; within the same pattern of this background we built a great nation, and when the Supreme court had to act on various cases, that dealt with churches and the freedom of its pulpits. Then the Supreme Court said: that we hold the right of the church to speak out, for this is a Christian nation.

Oh, you say but there are a lot of people here who are not Christian. That makes no difference. For the Supreme Court said that this is a Christian nation. And there are 149 million of us who are white, and Christian and that is a majority and we ought to be smart enough to run it.

I was discussing this one day and I noticed one man who might be a little different and I was not going to say anything, but finally he spoke up and he said, 'So you think that since this is a Christian nation? Then it ought to be staffed by Christians, and run by Christians? But what about the

people who reside here and are not Christians and who would not like that?' So I said, "Well then, what did they come here for?" I said, 'I assume that you are speaking out of some personal relationship to this problem? Where were you born?' He said, 'I was born here. And my parents were from eastern Europe.' So then I said, 'let me ask you a question. Were your mother and father Christians?' And he replied, 'I should say not'. So I asked, 'Are you a Christian?' And he replied, 'I should say not.' So I said, 'were your great grandfathers and mothers Christian?' And he said, 'No they were not'. So then I asked, 'Then why did they come to a nation which was known to be predominately Christian? Why did they come?' So he said, 'We came here because there was supposed to be greater freedom and opportunity'. But, my friends, this was under a Christian government.

Now then, this is what I said, 'I would propose that you let us Christians run America. Because if we don't then it will probably turn out like the place your people left. And I am also going to propose that if you do not let us run America we will send you back where you came from.'

Someone said, But Dr. swift, is this American? It is just as American as 1776; just as American. I have as much right and far greater authority, to advocate the total segregation of races and religion, and the establishment of this nation in the hands of a great Christian majority, than the President has tonight to talk about the elimination of immigration. I not only have behind me the whole pattern of our nation up to this fatal day, but I also have before me the advocacy of the Most High God for almost 2000 years of a Christian destiny. And almost 5000 years of a Patriarchal destiny, and directory. So as a minister of God, I will proclaim his word whether it agrees with the President or not. Nor will I declare that we must now stop in this society the declaration of maintaining the will of God.

Some speak out and say that the church must not speak out for when it does, it runs contrary to those who have been selected to lead our nation. I am going to tell you something, most of the people who voted for Mr. Johnson, did not vote for him to turn us over to the rest of the world and take our property to support those who do not work, and give special privileges to the minority. He was not elected for that. If the people had

known that he was going to act like this then there would be a different president there tonight.

Now; I point this out to you. The kingdom of God is political, it is spiritual, it is divinely ordained, and it is tomorrow's orders. It is in the essence of today's orders, and it is in the great synthesis of God's measurers.

You say, well it looks like we are going down hill. But you just have to go far enough to make the people restless and they will throw the whole thing out. That is why Zachariah says that there will be wrath in the countenance of my people. And they will rise up and there will not be a Canaanite left in the house of God. And Malachi says that also in the last chapter of his writings. When my people get angry, there will not be left one Canaanite in the house of God. And then God says that my people of Joseph shall be like a flame, and Edomites will be like a stubble.

Someone says, that; 'I disagree with that'. Well that is all right for God said this and I am just repeating it. Do you know one thing about us, our critics can attack us on radio and on TV, but they are attacking themselves? Just remember that now, they are talking to themselves. They may not like what we think or what we say. But you know, we don't care two hoots whether they like it or not. They come running down here and try to get you to go on their shows, because they have a whole bunch of people set up to insult you, but all that we want is for them to stay out of our hair. For God has raised up unto this congregation and to those in your movement the Christians that think like you do, an area of communication of that is sweeping across the nation, and across continents and to the ends the world, and more people then will think with you and share with you the things we are talking about tonight. They will listen to this rather than any single message from this other station this week.

Now listen. This is of the spirit. This is not only a self-evident factor, but it becomes more incredible. The other day I talked to a business man who had just returned from a trip of 40 days. He said, I have been in patriotic groups, and among business men in homes, and over the eastern parts of the U.S. and then up thru the middle of the country before I flew out here

last night, to San Francisco. And he said, I want you to know that, I was in maybe seven or eight major church denomination and though I was among more Conservative people but I want to tell you this. Except for one home that I was in they are associated with your organization and they are listening to the tape messages. Or they had tapes and were multiplying them.

He said, I want you to know that people are so hungry, and want to have a biblical foundation, and something which they can stand upon and not have to guess at, but have a fiat which our race has had for an authority for centuries and millenniums. Here is what I think happens. I think that 100 times as many tapes are made every day than you make from your headquarters. He said I was in groups where when they were listening to tapes, they had three or four machines copying the tapes. I was in a home where in about eleven families came that night and two people testified as to this. I had a little time and I found out that wherever these tapes are played they are multiplied, and they were copied and sent out somewhere else. When I stop to think as to how many masters go out, then realize how much copying is going on, every day, and every night. I realize that the multitude of the copying of the multitude of tapes that have gone on, and thus there is as many as 100 times as many tapes going out as you send out. He said, I have been a rather hard headed business man and I have been working for my family, but this has challenged me to think back to the factors around my faith and I could not find anybody to interpret it.

Now he said, I find an upsurge in America, people are starting to interpret according to the vision of God. On the basis of what God has said, on the basis of the intellect that will understand, upon the background of your heritage which will make it stand. He said, I am a part of something that is now living, and moving and I am glad it is going so fast. This is why I tell you tonight, let them talk to themselves. Maybe they will get more grass dried out by the hot breath. For the flames will consume the stuff. The kingdom of God is political, the most dynamic institution, which give instructions to people on morals, on ethics, on divine law and responsibility. In the new order which follows the consummation of God and the atonement, to lift the guilt complex from men and set them free.

And to let them stand as tall sons and daughters before HIM. Was to call out a people for His name, the Ecclesia of coming from the Greek meaning from the spiritual centre of the kingdom in this new era which we call the New Testament day. Thus the word Ecclesia is to 'call out' His church, this assembly. For he said to Peter: "Who do you say that I am?" And Peter replied, "Thou art the Christ, the embodiment of God." And then Jesus said: "Thou art Peter, the little rock, and upon the foundation of this faith I will build my church and all of the perdition will not prevail against it."

Now; I point this out to you. No greater strategy than the mind of God, sent out his disciples two by two to tell it, tell it, tell it. And as they bore witness to truth then he sent a wave of energy of his spirit to renew to the consciousness of those he wanted to know and to understand because of the background of their affinity. So they went out two by two and they gathered more. And they kept this progression, until we discover, that it reaches out across the seas. It reaches every white nation in Western Europe, and it reaches out to every structure of white society, and it has been going, and going. And now some odd 1900 and some years later all of the white nations of the western world are Christians. You say, what happened to the rest of them? Well, they did not have any affinity for this. They have thousands of years of worshipping Witch doctors, and idols, and then as you tried to Evangelise, then the Witch doctors took back over. But one of these days we will knock down every pagan grove and every witch doctor, and then we will take over a people for God, And hold them for ever.

Now; listen. Jesus said: when you pray, then pray in this manner. "Our father which art in heaven hallowed be thy name Thy kingdom come, thy Will be done, in earth as it is in heaven."

So what are we talking about? We are talking about a race God placed in earth, and which he kept alive in relationship by calling them out in communion, and meditation and in congregation with spirit called ministers. We are talking about the continuity of that church in the New Testament age, there to inspire and active people living in earth, who became men and nations, of his kingdom. We are talking about a spiritual

force ruling the earth with righteousness. To build this kingdom back here in this one area of the Universe into which Lucifer has been driven. We are talking about the political plan of God to defeat the devil, forever, right here. Some say but that is superstitious. That is not too superstitious, these fellows running around aren't too superstitious. That guy last week here with that piece of iron wasn't superstition. If he comes back again, you will find that is not superstition. We are in a battle for survival. We are in a struggle, and we have been send down here to triumph. And God will enter the battle to see that we do. Someone said, but we are outnumbered. Well that is find that will make a bigger victory. That shows a bigger miracle.

I am going to tell you something. You are not outnumbered in intelligence and in brains. You can throw all of the Africans, and all of the Asians into the picture and they still would not come up to the Anglo-Saxon and Scandinavian, Germanic, Lombard mind. They would not match your technological superiority unless the 'Smoos' ran over there with your secrets, after they stole them from your laboratories. If you are worrying about the mind power of the Soviet Union, if it had not been for the American plot and the Canadian plot, and the Greenglasses, and the Silverburgs and all of the rest of these 'smoos' there would be no atomic secrets any where in the Soviet Union. If we had been as smart with our intervention as those, who stole them they would not have gotten them out of the country. We do not have any war with any federal agency when they serve the country instead of a bunch of 'Smoos' who are politicians. I am going to tell you something tonight. We better battle Communism, and put in containment those who would steal our secrets rather than to run around trying to find the patriots who are getting ready to protect themselves. There is a few surprises that materialists do not understand. And that is that if they were to move suddenly against the Children of God whether they are armed or unarmed, the hosts would intervene and the catastrophe upon the enemy in this country would be amazing. They live just far enough away from the knowledge that the fire of God strikes from the sky, and it still works.

Listen. I point this out to you. Jesus Christ not only advocated this certainty of victory after he had consummated this avenue of grace. For

he made this declaration concerning his plan and his purpose. "Know ye therefore, that one of the things that I am going to do, is that I am going to come with great power and all of my ministering spirits. And with power and Glory. And I am going to gather all of the nations of the earth, and I am going to segregate them, as a man separates sheep from goats. And I am going to say to these Sheep nations, the white Christian nations, rule this earth with righteousness and justice like a rod of iron." This will bring justice and a law of righteousness. 'Remember that I have planned this for you, oh, little flock, from before the foundation of the world.' So you don't think That God ever makes decisions?

Now; I want to site to you that since the kingdom is political. Since this means intentionally a reign, then lets see if this means here on earth. Someone said, But He said, My kingdom is not of this world. No he said, MY KINGDOM IS NOT OF THIS ERA. This a difference in translation. The total coming in of the kingdom of Christ was not going to be in the era of his crucifixion. It would be an era of triumphant success several millenniums ahead of that time. When he would return to rule.

Now; listen to what it says here in the book of Revelation, concerning his household. That we can sing a new song also, because we are the children whom he had redeemed out of the blood and the kindred. When you are a kindred then you are a relative and God said that he came embodied in the flesh of his kindred because he was a relative.

Listen to what it says here: 'He hath made us kings and priests and we are going to rule on the earth.' Isn't that government and politics? Thus the politics of God is that the highest expression is of his Christian embodied household. And he says that they are going to reign.

Now; listen. I want you to know that you cannot be a good Christian and bypass the areas of earth in which you have been assigned. You cannot be a good Christian and then let the Administration and the machinery, and the tools of the machinery that bring about good government pass into the hands of your enemies. This machinery and these tools are what we call politics today. And if you say, oh, we do not want to touch politics

because it is too dirty. Well if you don't want dirty politics then move in as Christians and occupy.

Someone said, Dr. Swift, we are going the route of Socialism, and we will subsidize people who do not have homes and health care, we will pay their rent, and if they need more money we will do that also. It is terrible what the Communists are doing to us. I said, 'It is terrible what we Christians are not doing for ourselves. So let's move in and retake America.

Someone said, but the church should not talk about politics. I just wish you could see all of the mail that comes across my desk. I would like to have you see how the National Council of Churches is trying to get us to support communist Martin Luther King. I would like for you to see how government programs want you to push this and push that government project. They want us to push the Peace Corps, and the property program, and they want us to push a program in the United Nations, and they want us to push a world United Nations day of prayer.

Now; if the government can move in and try to corrupt the church thinking that her ministers are so blind, that they will push areas of socialism, communism, and integration. Then they cannot deny the right of the church to oppose these things on the basis of consciousness. Someone said that the church has only one thing to do and that is to preach Christ. And as I read Christ, he said Occupy.

All right. There is a lot of Christ that I could preach here that would send them screaming. One day Jesus went into the temple and he looked at these International Bankers who had settled down in Palestine, and they were conning the people by exchanging money at a high rate of usury. They could not even go into the Temple without changing their money at this high rate of usury, then it was holy money. Do you know what holy money is? This is money the Jews can run off with. After all you do not want money, you don't want silver, we are going to take it all out of the coins, we will make it look like silver and feel like silver, cause you don't want it. So they will take the silver out and put in plastic or anything else they find. Because the Jews want the silver. Well, let me tell you some-

thing. In these last few months the Jews took the silver and the gold, and they transferred it to Tel Aviv. Well if they want it so bad, let's keep it. Listen. Jesus went to the temple. So who are we talking about? We are talking about God down here on earth. Someone said that God walked the earth, he was holding an evangelistic meeting somewhere and he said, God walked the earth, and he was standing and lamenting the conditions, and he was calling on all men to repent. But if God walked the earth, he would not do anything drastic. He would be calm and gentle. Well he has already walked in earth and what did he do? They did not have hock shops in those days, for they had even formed one on the temple steps in those days. They didn't have about 25 or 30 brokers out here trying to sell the same stock, They were all down in the temple doing it. They were even buying and selling people to participate in their religion, and they are trying to do that today.

Now listen. Jesus went in and he cast them out of the temple, and then he overthrew the tables of the money changers. And HE said, my house shall be called a 'house of prayer' and you have made it a den of thieves and murderers. He didn't go down there and say, gentlemen, I plead with you to resist the sins of your past. He just made up a good old scourge and went in there and scattered them. I tell you this, if you are ever whipped by God then you will be whipped. There are a lot of people who need this kind of whipping to come to their senses.

Now; listen. I point out to you that God stepped into these areas of affairs. And I point out to you that when he gave inspiration to his Apostles, he called on them to participate in the structure of their society, in their schools and their homes. For he calls these people, 'My house'. He said (II John) that many deceivers had come into the world. And what is a deceiver but an anti-Christ. Those who deny that Jesus the Christ came in the flesh. And since you are a Christian society then you do not accept a deceiver, so you send them packing. You don't put them in power, or in the Supreme Court. You don't even send them over to the United Nations, for they are pro-Communists and could not represent you any how.

This is a Christian position. And do you want to lose all you have? Do you want to lose your life, your freedom, all of the things that you have

wrought? Listen. Here is what it says here: 'look to yourselves or you are going to lose every thing that you have wrought. And instead of receiving a reward you are going to lose it, if you let these kind of people in who deny that Jesus is the Christ. If you let them into your government, your nation or any where in power. If you don't trust them, as they try to make this not a Christian society. If you don't want schools teachers like they have up in Apple Valley, where they teach them that Marijuana is O.K., and how to use contraceptives. I can prove what I am saying and could break this wide open right now. I am telling you that if you do not want this depravity then you better put principals in with Christian principals and visions for America.

For He says that who so ever transgresses in this transgression and does not believe that Christ is the embodiment of God, he not only does not have God, but he does not abide in the doctrine of Christ. He has no relationship to God in the Old Testament, or the revelation of God in the new. Therefore you are told that if they come to you with this doctrine, then do not let them in your nation and do not let them into your homes. Don't let them into your house or my house, tell them to be gone, out. Someone said but that is not democratic. But it is Christian and Republican.

And if they abide not in this doctrine don't you do like some of these brethren and say: "God bless you any way, brother." You just say devil get out of here. God says if you say 'God bless you any how then you will be counted with their evil deeds and God will chastise you. For blessing my enemies. Oh! You say what kind of a bigoted program does God have anyhow? He has one absolutely bias, for he intends for his race and his religion to be supreme in this universe. This is bias, but it is also God not letting evil triumph. And if My God wasn't that big I would be ashamed of HIM. Someone said but you are going to have enemies. That's right I will have enemies until we put the last enemy down. But I am as proud of my enemies as I am my friends. And as far as that goes, this idea that we must have all of this evil is a lie, God never told you to stand for all of that, he said for you to come out and be separate, and to touch not the unclean things.

Now; listen. In the books in Britain they are saying that if it wasn't for the organization of the society and the Apostle Paul and his Epistles they would have forgotten Jesus. Well this is another piece of propaganda. What made the Apostle Paul what he was is the holy spirit of God which unveiled to him wisdom and truth, and told him to tell it. You know people are trying to pull the horse with the cart. The Apostle Paul did not make God. No, God made the apostle Paul. Even Mr. Roosevelt has found that out by now. When you had a day of drought he said I will take care of that, but he never sent the rain. In fact I never remember Mr. Roosevelt sending any bounty. He just ploughed under the corn and buried the cattle. That does not bring prosperity. It brings the lack of it. It brought in money but you can't eat money, and it had lots more backing then than it has since.

This is what God said: 'Be not unequally yoked with unbelievers, for what fellowship is there with unrighteousness. And what communion is there with darkness? What agreement hath the temple of God with idols. You are the temple of God, you are God's child, this is his temple, and all of these bodies of the pagans their bodies have been the temples of idols. In the New Testament, he says, Come out from among them and be separate. Let's pray that we can take this blight out of our nation and put everything back in proper order.

End of message.
